BE A MEDIA CREATIVE

www.CreateMedia.School

Create Media School

Our vision is to see an increasing number of artists and experts from different nations supporting each other to produce and share primarily Bible-related content through all types of media.

Our mission is to train individuals who produce meaningful media content within a network of creative people for the different types of media.

"I want to say a huge thank you for producing such encouraging and useful programs. It was a huge blessing for me, as it encouraged me to seek the closeness of His presence more in my life. Blessings to you all!" *Shahnaz from Iran to a TV Channel*

Biblical Leadership

Course

We offer mainly hands-on, learning-by-doing knowledge in all areas of media production.

We guide students through their own productions and connect them to a network of creative people.

Our courses last three months. They enable students to produce various programs like interviews, music clips, short films and TV series for social media distribution and satellite broadcasting.

Requirements

We require an open cultural worldview and high motivation to learn. Technical or creative understanding helps as well. If Create Media School sponsors a student, further cooperation is required.

Next Courses

Our next course is in partnership with 222 Ministries in the Netherlands from 8 September to 7 December 2018.

Another course is planned from the end of January to the end of April 2019 in Pakistan.

Course for your organisation?

A local organisation or church can invite Create Media School to give courses in their country and for their staff or people group. We offer three-month courses in media and TV production. We will set up a real production house structure, e.g. studio, to work in a professional environment. Create Media School will produce media, which can be used by the local organisation, as well as the Media School and – if agreed – by other organisations and ministries. We want to serve different ministries and churches in close partnership, especially Persian TV ministries.

International

Our students and teachers come from different countries. Therefore, the training language is English and can be translated into other languages.

Inf uence the world

Our goal is to train people as f lmmakers and equip them with all the knowledge they need to inf uence the world through media.

Please contact us for more information and the application form for the course in the Netherlands or Pakistan.
